

The West Palm Beach Crime Prevention Committee Board of Directors and in the '60s and 70's was a member of Palm Beach County Republican Executive Committee (I quit when President Nixon resigned).

I retired from active practice of law in January 1990 and for three years thereafter traveled extensively, both in the United States and Europe. Using a motor home, Mary and I covered every State west of the Mississippi in a four month trip, and two years later we did a three month motor home trip to Alaska.

After three years of retirement, "I had enjoyed all I could stand." The oldest son, Patrick, a partner in a small law firm in West Palm Beach offered me an office and a secretary, and I went back into practice in a very limited way.

Over the years Mary and I did an extensive amount of travel, a lot of which included home exchanges, usually for a month at a time. Home exchanges included such places as Dublin, Londonderry, London, Wimbledon, Plymouth, Paris, Berlin, Antwerp, New York City, etc.

Hobbies and outside activities over the years have included recreational flying; owning, showing, and working on vintage automobiles; collecting presidential political buttons; and collecting/buying/selling/trading vintage fountain pens.

My family is my pride – Mary, 2 sons, 2 daughters and 6 grandchildren.

Life has been good!
